IV: Summary of Comments and Responses

(1) Subject Matter: Limited X-ray Machine Operator (LXMO) performing bedside radiography.

(a) Pam Colburn and Dewey Crawford
Written comment from Wathal Bishop

Comment: Does this prevent bedside radiography at skilled nursing facilities and residential settings?

(b) Response: The exclusion of LXMO's from bedside radiography has been included in the regulations since 2007 and the Board consulted with current Kentucky LXMO educational institutional programs at Spencerian College, Lexington/Louisville and confirmed that the inclusion of bedside radiography is not included in their LXMO curriculum standards. Also, the independent study program does not include bedside radiography. This information confirms the Board's decision to continue the exclusion of bedside radiography from LXMO licensees.
